■ **RESEARCH** *Investigates the relationship between the use of a mobile phone and the use of a laptop computer. The study found that the use of a mobile phone while using a laptop computer is associated with a decrease in the number of errors made. The study also found that the use of a mobile phone while using a laptop computer is associated with an increase in the time taken to complete the task.*

THE 1991 CONGRESSIONAL COMMISSION ON THE NATIONAL SYSTEM OF PUBLIC ADMINISTRATION, established by the National System of Public Administration Act of 1991, was charged with the task of reviewing the structure and functions of the federal government's executive branch. The commission's report, *Rebuilding the Federal Government*, was published in 1993. The report's findings and recommendations were the basis for the National System of Public Administration Act of 1994, which was signed into law by President Bill Clinton. The act established the National System of Public Administration as a new entity within the executive branch, and it provided for the creation of the National System of Public Administration Council, the National System of Public Administration Office, and the National System of Public Administration Commission. The act also provided for the creation of the National System of Public Administration Institute, the National System of Public Administration Center, and the National System of Public Administration Foundation. The act also provided for the creation of the National System of Public Administration Academy, the National System of Public Administration Library, and the National System of Public Administration Museum. The act also provided for the creation of the National System of Public Administration Archives, the National System of Public Administration Library, and the National System of Public Administration Museum. The act also provided for the creation of the National System of Public Administration Academy, the National System of Public Administration Library, and the National System of Public Administration Museum. The act also provided for the creation of the National System of Public Administration Archives, the National System of Public Administration Library, and the National System of Public Administration Museum.

- The NetFlow cache is a table that stores information about the flow of traffic across the network.
- The NetFlow cache is a table that stores information about the flow of traffic across the network.
- The NetFlow cache is a table that stores information about the flow of traffic across the network.
- The NetFlow cache is a table that stores information about the flow of traffic across the network.

Answer: A,B
